File: USPT

Jun 15, 1999

DOCUMENT-IDENTIFIER: US 5913202 A

TITLE: Financial information intermediary system

CLAIMS:

7. A financial information intermediary system which is linked to a plurality of financial institutions including a first and second financial institutions, comprising:

financial information storage means for storing account information descriptive of accounts owned by a client, the accounts including a first account established in the first financial institution; and

intermediary processing means, activated by a request from the client for moving transactions related to the first account in the first financial institution to the second financial institution, for transmitting a first request message to the second financial institution for opening a new account and a second request message to the first financial institution for canceling the first account.
